COVID-19 Changes

Hello to All Our Valued Customers

The [COVID-19](#) virus has affected services and workplace procedures throughout the state; Iredell County Building Standards is no exception.

[Please be advised](#) that as of Monday, **March 23, 2020 at 12:00 noon**, public access to our building at 349 N Center St. will be limited to the main entry vestibule.

[Social Distancing](#) dictates we now do business remotely without face-to-face interaction with the public. However, should there be a need to meet with staff, [please contact a staff member to set up an appointment](#). That staff member will schedule a time to meet with you in the Building Standards Center first floor conference room.

Tables have been placed inside the main entrance to the Building Standards Center. The tables have information providing the names and phone numbers of all staff members in the building, along with various permit application forms. All of our forms can be accessed online at the [Central Permitting](#) and [Building Standards](#) webpages.

Completed permit application forms can be faxed to Central Permitting at 704-878-3171; or downloaded, completed and [emailed to a staff member](#). Email addresses are on the website. Permits can also be [applied for, pulled, printed and paid for at the county's website](#).

Environmental Health applications and additional information can be found on their website at: <https://www.co.iredell.nc.us/214/Environmental-Health> or you can contact Ronda Hart in the Statesville office at 704-878-5030 Ext. 3456 or Barbara Nebel in the Mooresville office at 704-660-3625

If you must come to our office to hand deliver plans or documents, please place them in the appropriate cabinet drawer for each Department, please leave your packet(s) and check for payment (if directed to do so), inside the cabinet. Similarly, there is a collection bin on an adjacent table for any documents. Please then contact a staff member and let someone know you have placed it in the bin or drawer for pick-up, rest assured staff will be monitoring and checking bins periodically throughout the work day.

We do apologize for this unforeseen inconvenience, but with everyone's cooperation, patience and understanding we will all get through these trying times.

Robby Wilkinson
Director of Building Standards
